With Smokey Robinson

Now that we are older our hearts have all grown up
Just a little wiser, but are we wise enough
Watching imitations of the real thing
You and I have both been fooled before

-CHORUS-

This time we win
Our ship has just come in
Forget the past
We've saved the best for last

Now that we are younger than we were last night
You can be my high road, I'll be your guiding light
There isn't any danger we can't handle

CHORUS

Two hearts entwined
This love is genuine
Forget the past
We've saved the best for last

We've both had had enough of hesitation

CHORUS

Two hearts entwined
This love is genuine
Forget the past
We've saved the best for last

CHORUS
