I've been here before, baby, knowing that I'm in love  
And I admit I wanna say that you're the one  
(You're the one)  
Sometimes I let my fears over rule my common sense  
Instead of loving you, I was running away  
(Running away)

You're the only, the one that my walls won't hold  
And I'm open even though I, I can be so cold  
And it's really not, not at all about anything that you do  
It's even hard for me to understand  
It's something I just go through

I knew that there would be days like this  
When I wanna let go  
Feeling like a man over my head  
But I won't let the days like this  
Change my feelings for you  
'Cuz I can't forget everything we had

I apologize for the changes I put you through  
My intent did not include hurting you  
(Hurting you)  
But insecurities had a way of taking over me  
And telling me that any excuse would do  
(Just would do)

See I need ya, your heartbeat right next to mine  
'Cuz I know that we'll get through this, it just takes  
sometime  
Baby don't say a single word, put you arms around me  
This is the time that I love you the most  
But I gotta win this war inside of me, oh

I knew that there would be days like this  
When I wanna let go  
Feeling like a man over my head  
But I won't let the days like this  
Change my feelings for you  
'Cuz I can't forget everything we had

I knew that there would be days like this

When I wanna let go  
Feeling like a man over my head  
But I won't let the days like this  
Change my feelings for you  
'Cuz I can't forget everything we had

I knew that there would be days like this  
When I wanna let go  
Feeling like a man over my head  
But I won't let the days like this  
Change my feelings for you  
'Cuz I can't forget everything we had

I knew that there would be a day like this  
(Days like this)  
I knew that there would be a day like this  
I knew that there would be a day like this  
(Days like this)  
I knew that there would be a day like this
