Just another story of the lost and lonely
Stuck right in the middle of two broken hearts
Even though you want to have who loves you only
You're afraid to give yourself another start

You deserve better, girl if you let me
I'll be your everything, I'll give what you need
So think it over, soon you'll discover
To make the perfect situation what you need is me

I've got just what it takes, don't be afraid
I've got just what it takes, don't be afraid

Can't wait till the moment that you stand beside me
Taking full advantage of my open heart
I've got a love that's not so much demanding
Just keeps right on giving till it fills you up

I'm gonna hold you, let me console you
Girl when you're feeling low, I'll be your place to go
So here's my offer, comes with a lifetime guarantee
From now on lonely nights will be all made history,
you've got me

I've got just what it takes, don't be afraid
I've got just what it takes, you must be afraid
I've got just what it takes, don't be afraid
I've got just what it takes, don't be afraid

Chase your tears away
Bring you out when you're down
Erase the pain
Now that I'm around, 'cause

I've got just what it takes, don't be afraid
I've got just what it takes, don't be afraid
I've got just what it takes, don't be afraid
I've got just what it takes, don't be afraid

Chase your tears away
Bring you out when you're down
Erase the pain, so here's my offer

Just what it takes
