Easy driver, she's a wicked rider  
She's smooth and she's skinny and she's probably  
mean  
Easy driver, pull up beside her  
Roll down the window on this fine machine

Don't turn away, just give me a sign  
Don't be afraid, love is so hard to find

Easy driver, get on up beside her  
She don't drive like she knows the way  
Easy driver, road's getting wider  
There's room to run and she might skate away  
Come on back, baby what you say

Don't turn away, just give me a sign  
Don't be afraid, love is so hard to find

One lane away from love, the story of my life  
Could I be good enough for your lonely avenue tonight  
It's a lonely avenue tonight

Don't turn away, just give me a sign  
Don't be afraid, love is so hard to find

Easy driver, she's a wicked rider  
She's smooth and she's skinny and she's probably  
mean  
Easy driver, get on up beside her  
Roll down the window on this fine machine

Easy driver, easy driver, easy driver, easy driver  
Easy driver, easy driver, easy driver, easy driver
