Ooh ooh
Ohh ohh

You've got the music in your heart
I know just how to make it start
You know the song that makes me sing
You know the tune so play my strings

'Cause I've got the melody deep in my heart
I could sing it alone but I'd rather not
You've got the harmony deep in your soul
If we sing it together our love will hold
Love gonna hold
Hold

It sounds just like a symphony
Something composed by you and me
I hear the music that we make
The sound of love, that what it takes

To coax out a melody straight from our hearts
Let us sing it together, don't ever stop
Let's add the harmony straight from our soul
'Cause if we sing together now
We sing together now
We sing, we sing

You've got the music in your heart
I know just how to make it start
You know the song that makes me sing
You know the tune so play it, play it, play it

I've got the melody deep in my heart
I could sing it alone but I'd rather not
You've got the harmony deep in your soul
If we sing it together our love will hold
Sing it together and love will hold
Let's sing the melody straight from our hearts
Let us sing it together, don't ever, ever stop
Let's add the harmony straight from our souls
'Cause if we sing together
We sing together

We sing, we sing

I've got the melody deep in my heart
I could sing it alone but I'd rather not
You've got the harmony deep in your soul
If we sing it together our love will hold
Let's sing the melody straight from our hearts
Let us sing it together, don't ever, never, never stop
Let's add the harmony straight from our souls
So that we sing together, our love will hold

Let's sing the melody
Let's sing the melody
Let's sing it, sing it
Don't ever, never, never stop
Let's add the harmony
Let's add the harmony
And if we sing it together our love will hold
Let's sing the melody straight
Let's sing the melody
Let's, let's sing it
Let's sing it baby
Never, never, never stop
Let's add the harmony
Let's add the harmony
And if we sing it together our love will hold
