Tell her you're never gonna leave her, tell her now
Tell her you're never gonna leave her, tell her now
Oh yeah

I know something about love, you gotta want it bad
If that girl's got into your blood, go out and get her
If you want her to be, the very part of you
Make you want to breathe, only one thing to do is

Tell her that you're never gonna leave her
Tell her that you're always gonna love her
Tell her, tell her, tell her, tell her right now
Oh yeah

And I know something about love, you gotta learn it
Make her see the moon up above, move out and you
get her
If you want her to make your heart sing out
If you want her to only think of you, then

Tell her that you're never gonna leave her
Tell her that you're always gonna love her
Tell her, tell her, tell her, tell her right
Oh yeah, yeah

Ever since the world began, it's been that way for man
And women were created
To make love our destiny, so why should true love be
So complicated, I know

I know something about love, you gotta make it
Show her what the world is made of, go on and prove it
If you want her to be always by your side
Then take her hand tonight, swallow your foolish pride

And tell her that you're never gonna leave her
Tell her that you're always gonna love her
Tell her, tell her, tell her, tell her right now

Come on and
Tell her that you're never gonna leave her
Tell her that you're always gonna love her

Tell her, tell her, tell her, tell her right now

Tell her that you're never gonna leave her
Tell her that, that you're always gonna love her
Tell her, tell her, tell her, tell her right now

Tell her that you're never gonna leave her
Tell her that you're always gonna love her
Tell her, tell her, tell her, tell her right now

Tell her that, tell her that
Tell her, tell her, tell her right now
