I'm finally workin' up, I finally understand
I don't really mind, I'm just another man
But you don't care, that's one thing I know that's true
So what's a man to you?
Any fool will do

You chewed me up, you spit me out
Like I was a sweet
You used me up, you threw me out
I'm back here on the street
But you don't care, whoa what I'm gonna do
So what's your man to you?
Any fool will do

(guitar solo)

So many fools before me, so many yet to come
Any one of them thinkin', I'm the only one
But you don't care, whoa whoa who you're lyin' to
So what's a man to you?
Any fool will do

I'm finally workin' up, I finally understand
I don't really matter, I'm just another man
But you don't care, whoa you lyin' too
So what's a man to you?
Any fool will do

Any fool will do
You don't care
Any fool will do
