He's like a bad check, always comin' back  
Yeah he's like a bad check baby, always comin' back  
You're my woman baby, he's got to face the fact

The word is on the street, your lover's back in town  
The phone's been ringin', and I know somethin' is goin'  
down  
If you love me baby, you won't let him come around

(guitar solo)

I worked so hard to get your love  
He's not gonna take it away  
If he comes to find you  
He just gonna have to pay  
I don't know where  
I don't know when  
He's like a bad check bouncing back again

If he shows his face, he'll get a big surprise  
I'm gonna put him in his place, he's got to realize  
He'll never have you baby, no matter how hard he tries

He's like a bad check, his account is overdrawn  
Yeah he's like a bad check baby, his account is  
overdrawn  
There's gonna be hell to pay, yeah if he don't move on
