Little bit of heartache, a little bit of pain  
A little bit of sunshine, a little rain  
Stick it in a pot, then you make a rue  
That's all you need to do, when you makin' a blues stew

A little bit of harp, a little guitar  
Throw in a bass, and give me twelve bars  
Stir it in a pot, that's all you got to do  
That's the recipe y'all, when you make a blues stew

Well a pitch o' Muddy Water  
a little Jimmy Reed  
a pound o' Howlin' Wolf  
Satisfaction guaranteed

Stir it in a pot, you use some spice and stew  
That's all you gotta do, when you make a blues stew

You take a good woman  
And a man who do her wrong  
You put it all together  
Then you got a blues song

Stir it in a pot, and you let it simmer on through  
That's all you need to do, when you makin' a blues stew

Let's make it now...
