Well you got someone else to give your lovin' too
I'm seeing red and I'm feelin' blue
But oh baby I'm hip to you
You can't have your cake woman, and eat it too

It's just as plain as night and day
You can't keep on baby, treatin' me this way
Whoa baby, just won't do
You can't have your cake woman and eat it too

Whoa babe, it just won't do
You bit off more than you can chew
You can't have your cake woman, and eat it too

(guitar solo)

You take my money and you give it away
You don't come back home 'til the break of day
Oh baby, it just won't do
You can't have your cake woman, and eat it too

I can't stand what you're tryin' to do
I can't be number one if you wanna have two
Oh baby, I'm hip to you
You can't have your cake woman, and eat it too

Whoa babe, no it just won't do
You bit off more than you can chew
You can't have your cake woman, and eat it too
