I hear you talkin', don't hear a word you say
Yeah I hear you talkin', don't hear a word you say
You just yack yack yack, gonna drive your man away

You're like a beehive baby with all the honey pulled out
You're like a beehive baby with all your honey pulled out
You just buzz buzz buzz, that's what you're all about

Like the Mississippi river, always flowin' South
Like the Mississippi river, always flowin' South
You just talk talk talk, always runnin' your mouth

(guitar solo)

You're like the garbage man baby, always talkin' trash
Yeah you're like the garbage man always talkin' trash
If I could sell it by the word, I'd never run out of cash

I hear you talkin' but I don't hear a word you say
Yeah I hear you talkin' but don't hear a word you say
You just yack yack yack, you're gonna drive your man,
your man away

yack yack yack
yack yack yack
you jus' yack yack yack
you jus' yack yack yack
You're gonna drive your man away
