Lady  
lady  
la - you hurt me  
oh  
don't make me cry

Leavin' me  
oh girl  
it's easy  
he will say good-bye.  
It's a hard time for lovers and a broken dream to you

Let me stay together  
my love  
forever

I never wanna  
wanna feeling blue.

By me: S-s-s-soul survivor  
oh  
come on  
take me higher

Don't let me down  
oh  
it's just too late  
girl.  
S-s-s-soul survivor  
it's like a burning fire

He pulls the strings of my deep emotions

Tonight  
the night  
it's alright.

Nothing  
lady  
hurts forever  
stop youF lipstick lies  
He will spend the nights together just with me

don't try

'Cause my love is so precious  
love will never be the same

And I'm never lonely  
'cause he's the only

I never wanna  
wanna play a game.

Be my: S-s-s-soul survivor  
oh  
come on  
take me higher  
...

It's the night  
it's the night  
yeah  
he'll win my heart

It's the night of my burning dream.  
Secret love  
secret love  
oh  
I wanna start

I'll never wanna lose you  
baby  
oh  
I'll never break apart.

Be my: S-s-s-soul survivor  
oh  
come on  
take me higher  
...
