I know I'm not your first love they're just a past memory
But I'm the one who's got you now and that's all that
matters to me
I know other arms have held you but I'm not jealous of
these
For mine are the arms that hold you now and that's all
that matters to me
I came alive when you came along you brought life
back to me
And don't care what's in your past you're as far as I can
see
I know other lips have kissed you I know you've been
thrilled and pleased
But mine are the lips that kiss you now and that's all
that matters to me

That's all that matters to me that's all that matters to
me
