Cotton Candy Sandman (Kenny Rankin)

Has anybody seen the cotton candy parade?
I've been lookin' for a long time, I've gotta cool off in
the shade
And if you wander by you don't have to be afraid
When you wish you could sprinkle the sandman with
your own pink lemonade

1. Sandman's comin', I'll open the window and let him
in
He's gonna dust your mind with a pretty little dream
and a grin for your chin
I love you, you're my little girl
How I love you, you'll never know the love you've been
bringing to me

2. You might remember some September, when I did
hold you tight
You came to me and you told of a dream you had
And it gave you such a frightening
I held you close in my heart
As I love you, you're never gonna know, never gonna
know
Love you been bringing to me
