Are you sure I haven't loved you somewhere before?
In another time, another place, on some distant shore
You know me so well, better than I know myself

And you'll love me tonight
(Tonight)
Like you've loved me all my life
(All my life)
All my life

And with the touch of your hand
You took me farther than I've never been
You'll love me like, you've loved me all my life

Love like we made could have taken a lifetime to find
But you found the way to my heart in a moment of time
You know how to care just like you've always been there
(Just like you've always been there)
Just like you've always been there

And you'll love me tonight
(Tonight)
Like you've loved me all my life
(All my life)
All my life

And with the touch of your hand
You took me farther than I've never been
You'll love me like, you've loved me all my life

With the touch of your hand
You took me farther than I've never been
You'll love me like, you've loved me all my life
You'll love me like, you've loved me all my life
