Call me up.

My friends they don't talk much 'bout the legend  
My friends they don't talk much anyway  
When they do, I know I better listen,  
'cos my good friends just naturally know  
the right things to say, they say:

Call me up the phone is in the cradle,  
get yourself a liver to my door,  
but if you saw any plan and if you got the time,  
we could talk the night away.

I don't got so lonely and I've gotta  
He said: it's tough to be the only man alive,  
he said: I'd give a river for just somebody to talk to  
We're thinking in lighting out for biting,

we came strolling by, she said:

Call me up the phone ...

Now Rosy was a queen of the all night cowboy,  
she said: Texas boy using kind of shy  
Don't you expect the nimble's invitation,  
just knock on the wall  
Track down the hall and drop on by, she said:

Call me up ...
