I think of all the times, I needed you
And you would come to me, 'cos you wanted too
And we built the fire that would last thro' the
night
Still be burnin' in the morning light.
Oh, it must've had a thousand ways
Of takin' our breath away
We took a chance or two, didn't we?
And made some mountains move, oh, didn't we?

From out of the blue storm clouds came
And it started rainin', we just let it rain
Oh, it must've been a careless love
Oh, it had to be a careless love
Satin sheets, and no regrets
We had it baby, we had the best, didn't we?.

And every now and then
I let my feelings show
And tho' it takes me a while
Just to let you go
'cos you were more than a lover
And more than a friend
Never before and never again.

Oh, it must've been!

Oh, it ought to be you and me
Oh, we had a good, didn't we?
Didn't we, didn't we?
