Hello, it was good to get your call
You haven't changed at all
You're the same as far as I can tell
No way, I see something in your face
Someone's filled the empty space in your life
Well I'm glad to hear you're doing well

I wish I could say that but I'd be lying
I'm still not over the fact
That you stopped trying
It was easy for you to just let go
Of all we had, I wish I could say that

What do you mean there's no one new?
It's my memory haunting you
Now you want the things we had back then
Inside there's a part of you that's still loving me
And always will 'til the end
And you'd like to see us try again

I wish I could say that but I'd be lying
I'm still not over the fact
That you stopped trying
It was easy for you to just let go
Of all we had, I wish I could say that
Woah I wish I could say that
