When my mind is all a flutter from living day to day

Your music's like a river, I can gently float away

When I'm deep in disappointment, and cannot face the night

Your music lifts me up and takes me closer to the light

Mother country music let your sad songs roll

You nurtured me in childhood, you're a haven for my soul

Mother country music let your guitars roll on

There's a refuge for my trouble... s.....in your songs

Break:

You helped me through the darkest nights, when I thought I was alone

And when I found a new love, you gave me a love song

When my heart is broken and everything goes wrong

It helps to ease my mind, when I hear it in your song

Mother country music let your sad songs roll

You nurtured me in childhood, you're a haven for my soul

Mother country music let your guitars roll on

There's a refuge for my trouble....s..... in your songs

Mother country music let your sad songs roll
