I wish you were with me tonight
Right here in my arms
It's hard to put my mind to rest
Not knowing where you are.

The city lights have a thousand eyes
That follow in the stares
It's midnight now
And I hope tonight I'm dead.

Why did I say those words I said?
When I knew that they were wrong
That living look into your face
You were as good as gone.

I paid the price with only this
I need you to return
How long must my soul
Inside me burn?

I don't wanna lose you somewhere in the night
I don't wanna use you we should make it right
'Cause that's the way that it's supposed to be
It should be as a stare of you and me.

Two hearts, one love.

I wonder what you're thinking of
I hope I'm on your mind
You know I'm crazy for you, babe
And I'm the jealous kind.

So take away my doubts and fears
And tell me where you are
We've come too far
To let love fall apart.

I don't wanna lose you somewhere in the night
I don't wanna use you we should make it right
'Cause that's the way that it's supposed to be
It should be as a stare of you and me.

Two hearts, one love.

So please, don't let our love just come undone
We gotta get back where we started from
Two hearts, one love.

I don't wanna lose you somewhere in the night
I don't wanna use you we should make it right
'Cause that's the way that it's supposed to be
It should be as a stare of you and me.

Two hearts, one love...
