When I awoke this a morning the rain was a pouring
down
I was gonna wed the little river girl just over the bridge
across town
Now I'm runnin' up and down the river and my nerves
are drivin' me wild
And the bridge washed out and I can't swim and my
baby's on the other side
Well now rain oh rain stop a fallin' dark clouds hurry
from the sky
The preacher and my bride are waitin' and the weddin'
bells are startin' to chime
I can't kiss and hold her and it's drivin' me out of my
mind

Cause the bridge washed out and I can't swim and my
baby's on the other side
[guitar]
Now I got one foot in the river the other foot solid on
the ground
I try to swim that ragin' river but I know if I try I'm gonna
drown
There's not a boat around me they walked on out with
the tide
And the bridge washed out and I can't swim and my
baby's on the other side
Well now rain oh rain...
The bridge washed out and I can't swim and my baby's
on the other side
