"Raining On A Sunny Day Without You"

It's raining and skies are blue the sun is shining and so
are you
It's raining on a sunny day without you
You're laughing but I'm so blue each drop that falls is a
part of you
It's raining on a sunny day without you
When the sun comes up and the rain comes down good
luck for me should come around

The cloudy skies for me won't disappear
Excuse me if you think I'm wrong but I just wish you'd
come on home
It's raining on a sunny day without you
[steel]
When the sun comes up...
Yes it's raining on a sunny day without you
