Time's a wastin' now
And I ain't got no time to play
Everything is changin' now
Pretty soon it's all gone away, gone away

Can we make the changes now?
Don't you know there's no other way?
And now's the time and the time is now
It's not the why, it's just the how

Have you looked around my friend
And really seen what's goin' down?
Well, take a look into the sky
And lay your hand upon the ground
Uh, I ask of you good neighbor
For, for a life long favor
It is my faith I put in in you

Can we make the changes now?
Don't you know there's no other way?
'Cause now's the time and the time is now
It's not the why, it's just the how

Have you looked around my friend
And really seen what's goin' down?
Come take a look into the sky
Lay your hand upon the ground
Well all, I ask of you good neighbor
For, for a life long favor
It's my faith I put in you

Oh, yeah
Yeah, yeah, yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah, yeah
All right
Yeah
Huh, all right
All right
Yeah, yeah
