Lightning in the bottle
Held it in my hand
Pushin' down the throttle
I drink and try again

Baby I'm addicted
I just can't get enough
Build a wall around me
I will rise above

No one makes me feel the way
Feel the way you do
No one else could make me say
Say these things to you

I feel something's kind of dangerous
I wish I knew what it was
Babe let's get together
For some wild love
Wild love

Goin' off the deep end
You got me hypnotized
First you took my sanity
Now you want my pride

Girl I wanna see you
See you in the flesh
I'm out here on a wire baby
And they're cutting down the nets

No one makes me feel the way
Feel the way you do
No one else could make me say
Say these things to you

I feel something's kind of dangerous
I wish I knew what it was
Babe let's get together
For some wild love
Wild love, wild love
Wow

Oh, I said it don't take long
But I just can't wait
Until then, feelings gone
It's gone

I don't mean to scare you baby
Or try to push you away
Something's got a hold on me
And it's going all the way

No one makes me feel the way
Feel the way you do
No one else could make me say
Say these things to you

I feel something's kind of dangerous
I wish I knew what it was
Babe let's get together
For some wild love
Wild love wild love
