Everybody make some room, they're coming
Back it up, don't you know who's walking?
These are the biggest stars. They think they're going
far
But let's back it up, back it up, back it up now
We invited you, this is our town and we don't take
kindly to liars
Who asked you anyway?

Run your mouth and watch this slip away, you'll never
take what we made.
We're better off now that you're gone
And I'm not sorry, I'll never apologize for the truth:
We're better off without you.

Now you can blame me all day for your loss,
But you got what you deserved, this is your fault.
So tell me all you know, it doesn't seem like that much
now.
I am done being silent, compliant, useless and
spineless, afraid.
I said I'm done being silent, compliant, useless and
spineless. I'm not afraid.
None of this was ever yours
And I almost lost the things I worked so hard for.

Run your mouth and watch this slip away, you'll never
take what we made.
We're better off now that you're gone
And I'm not sorry, I'll never apologize for the truth:
We're better off without you.

It's a sad day when you realize your friends will turn
their backs,
But I'm getting past it all and I think we're right on
track.
But you were never my friends, I could tell by all the
things you said.
I won't forget, I won't forget.
You asked for silence so you can still hold up your head
But I can recall that when it was me the same courtesy
was never granted.

You asked for silence so you can still hold up your head
I promise I won't speak, I'll sing this song instead.

Run your mouth and watch this slip away, you'll never
take what we made.

We're better off now that you're gone
And I'm not sorry, I'll never apologize for the truth:
We're better off without you.
