Attack

Look for no ending
As they will suffer for you
Descend

The sun has turned into darkness
Down into the depths of hell
Slay the ones who have slew
Atone for death by death

This boundless earth has no beginning
Only destruction that has no ending

Rotting in our existence
Mutilation of a different kind
This is the end of mortal man

The utter end of mortal man
Has been set upon us all

This is the art of decay
To atone for death by death
