"Ever Been Here"

Visit "[Ever Been Here](#)" on MotoLyrics.com

Darkness falls across the land
And no one seems to care
The sun is gone the moon is black
There's no light anywhere

Chorus

Has anybody ever really been here before me
I'd really like to know
Has anybody ever really been here before me
Lord speak into my soul

I cannot see in front of me
Don't know what's left behind
People standing over me
They see I'm stumbling blind

Chorus

Has anybody ever really been here before me
I'd really like to know
Has anybody ever really been here before me
Lord speak into my soul

Bridge

I wanna hear your still small voice
I wanna hear your still small voice
I wanna hear your still small voice
I wanna hear your still small voice
