last night i met carl perkins
and we talked about guitars
last night i met carl perkings
and she can't take that from me

with a wicked heart and a love so bad
she could steal my heart with a knife in my back

last night i met carl perkins
and she can't take that from me

i pay the rent and in all her wakin' hours she wants this,
she wants that
what happened to his, hers and ours?

losing doesn't take a stool anymore
it will all be taxed and taken away for sure

last night i met carl perkins
and she can't take that from me

lead solo

with a wicked heart and a love so bad
she could steal my heart with a knife in my back

last night i met carl perkins
and she can't take that from me

she got the house and my new cadillac
i got bills, sleepless nights, the bank is on my back

she took everything i had and more
but she can't throw my memories out the door

2x
last night i met carl perkins
and we talked about guitars
last night i met carl perkins
and she can't take that from me
