[1]

They're hard to ignore
We see the angels home
As we walk through the door
It seems our minds are one
We shall want no more

[2]

We've missed the chance it's true

[3]

In the silence
Where it all begins
In the silence

We say goodbye again

[4]

We must choose your fate
As look into your eyes
Another journey awaits
This we must visualize

[repeat 2]

[repeat 3]

As we have so before
It seems we are as one
We shall need no more

[repeat 2]
