Step into the light...

[1]

I hear the voice call from another day
I close my eyes slow, is this her home?
I reach my heart out for another sign
The candles blow out, we're all alone
I've counted all days, through all years
I've always wondered why, you seemed so near

[2]

Step into the light...into the light
Step into the light...look into

[3]

Look into my eye, look through my soul

It's forever, soon you will know
As you are today, so I once was
As I am today, you will become

[repeat 2]

[4]

Am I dreaming, or am I awake
Please don't leave me, no not again
Well I shall follow, wherever you will go
I know the answer to bring the end
As you are today, I now will be
As we go today, we shall be free

[repeat 2]
