I was born to love no one
No one to love me
Only the wind in the long green grass
The frost in a broken tree
I was born to use my eyes
Dream with the sun and the skies
To flight way in the life lonesome
In the mist where melody fly

I was made to love magic
All it's wonder to know
But you all lost that magic
Many many years ago

I was born to sail away
Into the a land of forever
Not to be tied to an old stone grave
In your land of never

I was made to love magic
All it's wonder to know
But you all lost that magic
Many many years ago

I was made to love magic
All it's wonder to know
But you all lost that magic
Many many years ago
