"Where No Endings End"

Visit "[Where No Endings End](#)" on [MotoLyrics.com](#)

Send me offshore, it's a cold blooded world
I can't win, I give in, I give in
In the field of my fight we can wonder all night
Why we have all the snow, all the snow

You and I, we will drawn in the break of my dawn
With the pouring wind where begin is begin
But we can't change the world, no, we can't change the
world
It's been done by someone long ago

Send me offshore, there's a crack in the floor
Calling in every wind, every wind
In the loop of my game there's a whole like to play
It's been done but we want what we want

You and I, we both run with an unloaded gun
For the same piece of land where no endings end
But we can't change the world, no we can't change the
world
It's been done by someone long ago

You and I, we both run with an unloaded gun
For the same piece of land where no endings end
But we can't change the world, no we can't change the
world
It's been done by someone long ago

Send me offshore, she is a cold blooded world
I can't win, I give in, I give in
