[Verse 1:]

Turned the corner, hit the breaks
Did a double take, I thought I saw your face
But it can't be you (no)
You said your out of town
Picked up the phone and hit speed dial
Went straight to your voicemail
Now I'm looking closer to know what I see
Because my man wouldn't be caught dead with nobody
else but me
But what gave it all away was your smile
The same one that picked me up
Got me breaking down
Cause I

[Chorus:]

Cause I can't believe it's you (in her arms)
Can't believe it's you (in her arms)
Can't believe my eyes (can't believe my eyes)
Tell me that I'm just seeing wrong
Was I blind? (Was I blind?)
Was I blind? (Was I blind?)
Or maybe I just didn't wanna see it all along
[repeat]

Can't believe my eyes
Can't believe my eyes
Can't believe that I was blind (oh)

[Verse 2:]

I parked the car then grabbed my keys
Slammed the door and then I rushed across the street
But my body froze
When you kissed her lips
Trying not to believe this
Standing here looking stupid
So I took a deep breath, tried to move my feet
Now I'm looking at the girl kissing on my man looking
right dead back at me
Then you looked up, saw my face
Ran out to me tryna explain

But I ain't hear a word you said
Cause I

[Chorus:]

Cause I can't believe it's you (in her arms)
Can't believe it's you (in her arms)
Can't believe my eyes (can't believe my eyes)
Tell me that I'm just seeing wrong
Was I blind? (Was I blind?)
Was I blind? (Was I blind?)
Or maybe I just didn't wanna see it all along
[repeat]

[Bridge:]

Don't talk to me, don't touch me cause you made it so
clear
You'd rather have your fun and throw away our years
No, no I been blind for it too long
You made it so easy to move on
So bye (bye)
Past your time (time)
See I'll be fine (fine)
Cause I'm not blind no more (no, oh)

[Chorus:]

Cause I can't believe it's you (in her arms)
Can't believe it's you (in her arms)
Can't believe my eyes (can't believe my eyes)
Tell me that I'm just seeing wrong
Was I blind? (Was I blind?)
Was I blind? (Was I blind?)
Or maybe I just didn't wanna see it all along
[repeat until song fades]
