Dearly beloved  
You were brought here today  
To make this thing called love  
Such a beautiful thing  
Can you feel it daddy?  
You don't really know what it is  
Can you do it?

Tell me how many other girls done hurt this  
Sounds a little like you might rehearse this ohh  
Yeah you talk a real good game but it's worthless  
If you can't work this  
Don't look so nervous

All you gotta do is ask about me and you'll find out I'm  
a boss  
When it comes to the get down, get down  
Ooh enough said, you might come through  
And show me how you do

Can you do it?  
And do it to me  
Can you prove it?  
Better than me  
Can you touch it?  
Like I really need  
Can you love it?  
And give it to me  
Just do it, just do it to me  
Just do it, just do it to me  
Just do it, just do it to me  
Just do it, just do it to me

Hate to admit you got me thinking  
What if we got away this weekend ohh  
Maybe we can do some trick-or-treating  
A little meet-n-greeting  
Is what we seeing

All you gotta do is ask about me and you'll find out I'm  
a boss

When it comes to the get down, get down  
Ooh enough said, you might come through  
And show me how you do

Can you do it?  
And do it to me  
Can you prove it?  
Better than me  
Can you touch it?  
Like I really need  
Can you love it?  
And give it to me  
Just do it, just do it to me  
Just do it, just do it to me  
Just do it, just do it to me  
Just do it, just do it to me

Boy you glow in the dark  
Would you like to see?  
I'm a rock to the beat  
With you under me  
Tell me if it's all good  
I'm knocking on wood  
T-t-talk is ch-cheap  
B-b-boy I wish you would

Just work me, work me  
You ain't even gotta try so hard  
Can you play your part?  
Just work me, work me  
You ain't really gotta talk so much  
Wanna feel my touch?  
Just work me, work me  
Because I want it tonight  
And it gotta be right  
So what you saying?  
Just work me, work me uh  
Just work me, work me  
Ow!

Can you do it?  
And do it to me  
Can you prove it?  
Better than me  
Can you touch it?  
Like I really need  
Can you love it?  
And give it to me  
Just do it, just do it to me  
Just do it, just do it to me  
Just do it, just do it to me

Just do it, just do it to me
