say you gotta surprise.
and ya headin down the highway.
baby I'm so excited, cause i wanna have you my way

from the very first night that we hit it off, hit it off
there was something on your mind lemme help you get
it off, get it off

tell me what you wanna do now
(we're alone tonight)
if i get in the mo0d
(you gotta do me right)
if we take it there

(are you prepared to fight)
cause -----
----get me outta my zone

Baby i can tell you really want it
and i got you (wrapped up,wrapped up,wrapped up)
even in the heat of the moment
said i need you (wrapped up,wrapped up, wrapped up)
