Put your hands up in the sky and wave and wave [x2]  
[come on and] 2 step  
Keri talk  
I'm startin the think I need space  
Now everytime I go out you all in my face  
Soon as I hit the door  
Why you gotta be actin so insecure?  
Where I been? Who I was with?  
Boy, you stressin me out with thisâ€¦.watch this

Relationship is supposed to revolve around trust, right?  
Well lets take it back a few months, like  
What about the other chick, thought you was kicking it  
with  
Man I'm getting sick of it  
Damn it's a shame, a sin  
You bout to get a dose of your medicine  
You couldn't even handle it, if the shoe was on the  
other foot now..

So what you gonna do when I don't give you that last  
chance  
And how you gonna act when you see me in the back  
with a new man  
And what's it gonna be when you could see me and him  
holding hands  
I'll bet you give a damn then

You can keep on feelin yourself  
I'ma be wit somebody else  
Better keep it real wit yourself  
Or you'll end up by yourself  
[x2]

Now you're threatening to leave me, so what  
Ordinarily I would be biting my tongue but, naw  
You couldn't picture me gone, thought I'd be sittin at  
home while you was doin the wrong  
You know it's messing with my head  
Thoughts of her up in my bed  
And if I do what you did to me how would it be  
If the shoe was on the other foot nowâ€¦!

I can wil'out take the knuckle route but I got class  
So what you gonna do when I pimp it out brand new  
romance  
When what you have turned into what you had  
I'll bet you give a damn then

You can keep on feelin yourself  
I'ma be wit somebody else  
Better keep it real wit yourself  
Or you'll end up by yourself  
[x2]  
Baby, do you know what I goo through  
Sittin' up waiting for you  
If that was you, you'd be gone  
Baby your sleepin' on me..

You can keep on feelin yourself  
I'ma be wit somebody else  
Better keep it real wit yourself  
Or you'll end up by yourself  
[x2]

How does it feel
