Come here baby
Sometimes I just wanna dance with you
Hold me like this, just rock with me

Put your arms around me boy
I got something to show you tonight
And you know I need your undivided attention baby
Ain't no other girl that can rock your world like I

So rewind, make this moment last forever babe
It feels like your body is calling me

But I don't, I don't want to come on too strong
But something happens when we slow dance
I try to be lady like, I got you here tonight
But something happens when we slow dance

Talking with my fingertips, yeah, yeah
I got so much to say babe
Words just get in the way baby, the way baby
Let's see can you read my hips

Read between the lines as we bump and grind
Just makes it better from behind
So one more time

So rewind, make this moment last forever babe
It feels like your body is calling me
I don't want to come on too strong
But something happens when we slow dance
I try to be lady like, I got you here tonight
But something happens when we slow dance

Got you in my element
Time to represent who you with
The whole world's staring at the both of us
And I'm giving you all my love

Got you in my element
Time to represent who you with
The whole world's staring at the both of us
And I'm giving you all my love

This one's for the dance floor, strictly for the dance floor

This one's for the dance floor, strictly for the dance floor

This one's for the dance floor, strictly for the dance floor

This one's for the dance floor, strictly for the, yeah

I don't want to come on too strong

But something happens when we slow dance

I try to be lady like but I got you here tonight

But something happens when we slow dance

I like that one

Just rock with me
