I wish I could rip out a page of my memory  
Cuz I put to much enegy in him and me  
Can't wait til I get through this phase  
Cuz it's killing me  
To bad we can't re-write our own history

Such a mystery when he's here with me  
It's hard to believe I'm still lonely  
Chances fading now, patience running out  
This ain't how it's supposed to be

I'm having nightmares  
From sleeping with the enemy  
We gotta re-reverse the chemistry  
I don't want us to be the end of me  
This love is taking all of my energy  
Energy, My Energy  
Taking all my energy  
Energy, My Energy  
Taking all of (my energy)

Seems only like yesterday  
Not even gravity  
Could keep your feet  
Off the ground  
When u go to me  
How can two be as one  
We've become to divided now  
There's no use hiding from my misery  
Such a mystery when he's here with me  
It's hard to believe I'm still lonely  
Chances fading now, patience running out  
This ain't how it's supposed to be

I'm having nightmares  
From sleeping with the enemy (Oh, Yeah)  
We gotta re-reverse the chemistry  
(We gotta re-)  
I don't want us to be the end of me  
This love is taking all of my energy  
Energy, My Energy  
Taking all my energy (Energy)

Energy (Energy), My Energy (Energy)  
Taking all of

Now I can feel you changin me  
And I can afford to slip much further  
From the person I was meant to be  
I'm not afraid to walk alone  
Not givin up on movin on  
Before it gets to deep  
Cause your taking all of my energy

I'm having nightmares  
From sleeping with the enemy  
We gotta reverse the chemistry  
I don't want us to be the end of me  
This love is taking all of my energy

I'm having nightmares  
From sleeping with the enemy (Oh)  
We gotta reverse the chemistry (Oh, Oh)  
I don't want us to be the end of me  
This love  
Is taking all of my energy (Energy)  
Energy (Energy), My Energy (Oh)  
Taking all my energy (Oh-Oh)  
Energy, My Energy (Taking all of me)  
Taking all of

Ya killing me  
Ya taking all of me yeah, oh  
This love is taking all of my energy
