Said you got a surprise
And your headed down the highway
Baby I'm so excited cause I wanna have you my way
From the very first night that we hit it off [off] hit it off
[off]
There was something on your mind let me help you get
it off [off] get it off [off]

[Bridge] Tell me what you wanna do now [we're alone
tonight]
If I get in the mood [you gotta do it right]
If we take it there [are you prepared to fly]
.... cause if you lead me on and get me out of my zone

Baby I can tell you really want it and I got you wrapped
upx3
Even in the heat of the moment I need you wrapped
upx3

You pull up to the truck and you wanna let it come said
you gotta be a trojan man
Want more than a kiss and you want this said you gotta
be a trojan man
Or it aint hatning
Never leave home without it now you gotta [get outta
herex2]x2

Im feeling the vibe no we wont need it right away
No lets take the time Just keep it in the hideaway
I've waited so long since we hit it off [off] hit it off [off]
Now there's something on my body can you help me
get it off [off] get it off [off]

[Bridge]
Tell me what you wanna do now [we're alone tonight]
If I get in the mood [you gotta do it right]
If we take it there [are you prepared to fly]
.... cause if you lead me on and get me out of my zone

[Chorus]
Baby I can tell you really want it and I got you wrapped
upx3

Even in the heat of the moment I need you wrapped
upx3

You pull up to the truck and you wanna let it come said
you gotta be a trojan man
Want more than a kiss and you want this said you gotta
be a trojan man
Or it aint hatning
Never leave home without it now you gotta [get outta
herex2]x2

Oh repeat..

[Bridge]
Tell me what you wanna do now [we're alone tonight]
If I get in the mood [you gotta do it right]
If we take it there [are you prepared to fly]
... cause if you lead me on and get me out of my zone

[Chorus]
Baby I can tell you really want it and I got you wrapped
upx3
Even in the heat of the moment I need you wrapped
upx3

You pull up to the truck and you wanna let it come said
you gotta be a trojan man
Want more than a kiss and you want this said you gotta
