Drivin' down the highway saying, "Goodbye" to it all
In between the blues and greens we're following the
call
That takes us so far away from summer's sunny days
I'm missing you already and I can still see your face

Sittin' underneath the stars with a cold beer and old
friends
Talkin' 'til the sun comes up and then we'd do it again
Well, you've become a part of me that I never wanna
lose
Till we come back together you know I'll be missing you

I can hear us laughing, I remember every part
I've got everything we ever did, it's tattooed on my
heart
But there's a colder wind comin' in and blowin' us apart
Till the summer brings us back, know you got a piece of
my heart
Till the summer brings us back, you've got

I can hear us laughing, I remember every part
I've got everything we ever did, it's tattooed on my
heart
But there's a cold wind comin' in and blowin' us apart
Till the summer brings us back, know you got a piece of
my heart
Till the summer brings us back, you've got

Watchin' your tail lights fadin' out of my sight
Feelin' like the sun just lost a little bit of its light
But you've left your memory to linger with new
memories to start
Till the summer brings you back, know you got a piece
of my heart
Till the summer brings us back, you've got

Oh you, you know you got a little bit of my heart, oh
Oh you, you know you got a little bit of my heart
