Tell me right now are you my friend?
Yea I am your best friend(best friend)
Now and forever
We are friends

Your my best friend
Till the end
And forevere we will be frinds
My best friend

Wait a minuite tell me if you
Are lieing or telling the truth

To me
Now that you said yes
We will be friends till the end

Your my best friend
Till the end
And forevere we will be frinds
My best friend
Your my best friend
Till the end
And forevere we will be frinds
My best friend
La la la la
