You're a bad influence,
And I'm in trouble,
You Got me powered-up,
On the double.

Ooh-ooh-ooh
If you wanna do, what I wanna do,
Then we're going down down down.
Ooh-ooh-ooh
If you've gonna do what I wanna do,
Then we're going down down down.

And if you feel like I feel,
Put your hearts up,
Put your hearts up.
Yeah, we got love, designed to kill,
Put your hearts up,
Put your hearts up.

You can't control the kids,
You can't control the kids,
You can't control the kids,
Put your hearts up.

You can't control the kids,
You can't control the kids,
You can't control the kids,
Put your hearts up.

You can't control the kids!
You can't control...

Bass drum overload,
Your decision,
Lift me off the ground,
Be my ignition.

Ooh-ooh-ooh
If you wanna do, what I wanna do,
Then we're going down down down.
Ooh-ooh-ooh
If you've gonna do what I wanna do,

Then we're going down down down.

If you feel like I feel,
Put your hearts up,
Put your hearts up.
Yeah, we got love, designed to kill,
Put your hearts up,
Put your hearts up.

You can't control the kids,
You can't control the kids,
You can't control the kids,
Put your hearts up.

You can't control the kids,
You can't control the kids,
You can't control the kids,
Put your hearts up.

You can't control the kids,
You can't control the kids,
You can't control the kids,
You can't control the kids,
You can't control the kids,
You can't control the kids.
