Tonight, give me something to believe in
Like the road that winds in front of me
Cause dirty white fences are all I see
Can't hold on, to a dream that's going nowhere
For the day the winds die down
And the dust settles in this damned town

*Just a shadow of someone
with a busted old guitar, empty coat and an innocent
heart

The wheels turn, round and round in circles
maybe to New Orleans
Chase my crazy, crazy dream and when
All my money's gone
And Marti Gras is finally over
I'm gonna deal with what I know is true, I want so bad to
get right with you

* Chorus

Let's go down to that lazy stream
Where years ago the waters washed us clean
Washed us clean

*Chorus/end
