Can't stand it when you're away  
Without a doubt,  
You're the best thing that's happened to me  
Yeah baby, and I just can't wait  
To have you by my side  
You know whenever you're around  
A smile is all that you're gonna see  
Cause you make me feel so good inside  
And there is no doubt, yeah I'm satisfied

#### **BRIDGE:**

I know that I won't find a better love  
I got a love that other girls dream of

#### **CHORUS:**

We got a love thang  
Feels so good to me  
This is our thang  
That's how a love should be  
We got a, we got a love  
We got a, we got a love  
We got a, that's how a love should be

I used to be lonely  
Cause I couldn't find someone  
That I could call my own  
Oh no, suddenly you stepped in my life  
Now you're here with me and  
All my lonely days are gone  
I don't know if it's wrong or right  
But it's better than a lonely night
