I need a love to meet me half the way
The kind of love that will always stay
Together, forever with you

Seems like something's in the air, but we can't decide
Whether to love or leave is a question of pride
In every motion there's love, it's brought us around
To the fact reality, there's nothing to see

CHORUS:

You win, I win, we lose
Cause there's nothing else to choose
You win, I win, we lose
Cause there's nothing left between me and you

I can often tell myself the things that I love to hear
And I can dream of a love that will never be
But it seems our love is not meant to be
So tell me what's on your mind to save us both the grief
Together in the beginning was a difference
But it seems our love's not meeting half the way
But who is right is everybody is wrong?
Sad song that we'll have to sing again and again
When the next one comes along

CHORUS

I need a love to meet me half the way
The kind of love that will always stay
Together, forever with you
I know that we can really make a change
All we gotta do is rearrange
My love, your love, our love
