Woke up a little late today
Looking out the clouds are gray
Got no missed phone calls from you
See your picture by my bed
Still the one I want instead
But I can't find a way to say

Come back (Come back)
You make up what I lack
My pride has left me all alone
It's getting so cold

I'm closing the windows to stay warm
It's a chill in my soul since you've been gone
The silence is louder than any thunder taking me under
Oh, I'm staying home today
Gonna hide away
'Cuz it feels like rain

(Do you know what it feels like, do you know what it
feels like
When it feels like rain)

Every day just seems the same
And I'm the only one to blame
I tried to play like I'm fine
But the pain is here to stay
That your love has washed away
Your phones and runs down the trail

Come back (Come back)
You make up what I lack
My pride has left me all alone
It's getting so cold

I'm closing the windows to stay warm
It's a chill in my soul since you've been gone
The silence is louder than any thunder taking me under
Oh, I'm staying home today
Gonna hide away
'Cuz it feels like rain

At some point this darkness is bound to fade today
It's so hard to believe this storm will ever blow away

I'm closing the windows to stay warm
It's a chill in my soul since you've been gone
The silence is louder than any thunder taking me under
Oh, I'm staying home today
Gonna hide away
'Cuz it feels like rain

(Do you know what it feels like, do you know what it
feels like)
It feels like rain
(Do you know what it feels like, do you know what it
feels like
When it feels like rain)
