# Kesha
# "Let Me Go"

Night is falling
We come undone
My heart is broken
Yeah you're still my only one

But I got so many
Things left to do
I wanna feel like I've been through
What you've been through

You are my first love
Trust me I have tried
But now I know I need to go
Just spread my wings and fly

CHORUS:
(So) Baby
Let my love, Let my love go
Baby
Let me live, I've got to go
Maybe
One day I'll be yours who knows
Baby
My love, Let my love go

(Baby gotta let me go)
My love, Let my love go
(Gotta let me go)
My love
(Baby gotta let me go)
Let my love go

I still daydream
That you'll stop by
And when my phone rings
I want you're voice on the line

It's not about anybody else
This hurts like hell
But I know I need it for myself

You are my first love

Trust me I have tried
But now I need to learn to fall
Without by my side
(Trust me baby)

CHORUS:
Baby
Let my love, Let my love go
Baby
Let me live, I've got to go

Maybe
One day I'll be yours who knows
Baby
My love, Let my love go

(Baby gotta let me go)
My love, Let my love go
(Let me go)
My love
(Baby gotta let me go)
Let my love go

How is that?
This hurts me baby
Boy you'll never know
(But) I just can't sit here regretting
Gotta let you go

If we're meant to be forever
Then it's down the road
If you really care about me,
Let me go

Baby
Let my love, Let my love go
Baby
Let me live, I've got to go
Maybe
One day I'll be yours who knows
Baby
My love, Let my love go

(Baby gotta let me go)
My love, Let my love go
(Let me go)
My love
(Baby gotta let me go)
Let my love go

Baby

Let my love, Let my love go
Baby
Let me live, I've got to go
Maybe
One day I'll be yours who knows
Baby
My love, Let my love go

(Baby gotta let me go)
My love, Let my love go
(Let me go)
My love
(Baby gotta let me go)
Let my love go
