Baby boy, you're really freaking me out
I think you mental, just following me around.
I turn the corner, oh look what I found.
A psychotic sexual predator hangin' downtown.

I can see eyes in my window.
Your love has got me on the run.
Lookin' down the barrel of a loaded gun.
You're lost if you think you're getting some.
I will never(never)
I will never(baby)
I would never(never)
N-n-n-n-never baby
oh
N-n-n-n-never baby

Scary boy, you're think we're fallin' in love.
You call me baby, but I'm callin' 911.
I open my eyes, oh look what I see.
A psychotic sexual sreep standing over me.

I can see eyes in my window.
Your love has got me on the run(on the run).
Lookin' down the barrel of a loaded gun.
You're lost if you think you're getting some.

I will never(baby)

Your love has done when it begun(when it begun).
You'll wait forever I'm your only one(only one).

place.

Maybe when hell is freezin' over now get out of my
face.

I can see eyes in my window.
Lookin' down the barrel of a loaded gun.

Your love has done when it begun(oh).
You'll wait forever I'm your only one(the only one).
You're lost if you think you're getting some.
