Kesha
"N-N-N-Never, Baby"

Pretty boy,
You're really freaking me out
I think you're mental,just following me around.
I turn the corner,oh look what I found.
A psychotic sexual predator hangin' downtown.

I can see eyes in my window...

Your love has got me on the run.
Lookin' down the barrel of a loaded gun.
You're lost if you think you're getting some.
I will never (never)
I will never (baby)
I would never (never)
N-n-n-n-never baby
oh
N-n-n-n-never baby

Scary boy,
You're think we'are fallin' in love.
You call me baby,but I'm callin' 911.
I open my eyes, oh look what I see.
A psychotic sexual creep standing over me.

I can see eyes in my window...

Your love has got me on the run.
Your love has got me on the run (on the run).
Lookin' down the barrel of a loaded gun.
You're lost if you think you're getting some.
I will never (never)
I will never (baby)

Your love has done when it begun (when it begun).
You'll wait forever I'm your only one (only one).
You're lost if you think you're getting some.

I would never (never)
I would never (baby)
I would never
N-n-n-n-never baby
N-n-n-n-n

oh...

You're followin' my footsteps like you're trasin' my tracks.
I-I-I-I think you put your hands on me you laid on my back.
I-I-I-I know there might've been a time or even been a place.
Your love has got me on the run(got me on the run).
Maybe when hell is freezin' over now get out of my face.

I can see eyes in my window...

Lookin' down the barrel of a loaded gun.
You're lost if you think you're getting some.
I would never(never)
I would never(baby)

Your love has done when it begun(oh).
You'll wait forever I'm your only one(the only one).
You're lost if you think you're getting some.
I will never
I will never baby
I will never
N-n-n-n-never baby
I would never
N-n-n-n-never baby
