Pull over quick!
I need a quick fix.
I need a fix.

You gotta catch a flight
You gotta split
You said you want a ride,
You're gonna get it.

I got my foot on the floor I'm gonna get you there quick
[I need it quick, I need a fix.]
You wanna say goodbye, got 20 minutes.

We're steamin up the window,
The only thing on is the radio
Give it up, and let's go
Only thing on is the radio
Radio oh oh oh, ohh.

Got the chemistry,
Damn it hurts.
Look what you do to me!
Goddamnit, it works.

I feel the engine below oh.
It makes me go OHH, ahh.
Let's crank it up in gear,
You want it, you know.

We're steamin up the window,
The only thing on is the radio
Give it up, and let's go
Only thing on is the radio
Radio oh oh oh, ohh.

Lost in this stereo,
Playin this private show.
No better place for you and me to be alone...
I feel you on my skin,
You got my heart racin.
I hear the clock ticking,
Ready set, let's go let's begin!

Pull over quick.
I need a quick fix.
I need a fix

We're steamin up the window,
The only thing on is the radio
Give it up, and let's go
Only thing on is the radio
The radio.

Let's crank it up, in the back row.
Only thing on is the radio.
Give it up, and let's go.
Only thing on is the radio
Radio oh oh oh, ohh.

The only thing on,
Is the radio.
